

4/25/2020 JOB CREATING BOOTSTRAP TEMPLATE PAGES

This job is: Create a Bootstrap HTML page template that I will use later for other pages on the website.

HERE ARE ALL MY NOTES AND THOUGHTS: The domain we will use is TrueModels.com This website currently holds an HTML page but we ARE NOT using the current HTML or current CSS or current Javascript. Please start project all new: No copy paste from old pages here or my other websites, please.

FTP INFO:
72.9.157.56
truemodels
5=@\$v{-?NQu.

CPanel: <https://truemodels.com:2083/> (same login info)

I need a NEW Bootstrap template page I can use for text and other items on this website.

Please visit: <https://jaclynnmarie.com/> (no nudity, but tiny garments on female model)

That is good page, but not proper Bootstrap perfect.

Notice page is max wide 980 or near that, not full viewport. I want that, but 1080px or 1280px?

Notice top of that Jaclynn page. Black bar:

Logo (name), Home icon | About Me | Latest News | Subscriber Login | JOIN NOW (the red button.)

I want that bar on my new template, but:

Logo | Home Icon | About Us | Latest News | Help | Subscriber Login (the red button)

I want that bar to fold like that website so becomes drop down menu on tiny device such as phone.

Notice on same page background color is: #333333 I want that.

The red color is: #930101

Notice on same page down under the slide carousel by the words LATEST JACLYNN MARIE PHOTOS & VIDEOS / UPDATED WEEKLY there is an inner container, white background with shadow around it. I want that. For me it will be a text area that I can use for my terms of service and other text pages. We will not prepare for images at this time. Maybe another date.

Notice at very bottom of that page is black bar with links:

Latest News | About Jaclynn | Subscriber Help | Privacy & Terms | 2257 Info | Subscriber Login

I need that black bar on my new template with these links:

Home | About Us | Latest News | Help | Privacy & Terms | Subscriber Login

Notice on that site under the black bar and links there is very dark grey footer. I need that with the same information as shown on JaclynnMarie

That Sir, will be our basic template page for the rest of the website.

RULE: We must start with new Bootstrap. Can't copy from Jaclynn site because that site IS NOT true bootstrap and has many, many junk pages and mistakes.

When basic template is done please send me a message so I can check it and also start to use it for my text page.

I am very selective about how a website is created, including where scripts and files are stored. Please follow these guides for the main template page (chatroom will be different)

/public_html/	This is root of site. index.html goes here. template.html goes here.
/public_html/assets/	This is folder for holding other items.
/public_html/assets/css/	styles.css file goes here
/public_html/assets/images/	All images go here
/public_html/assets/js/	All locally hosted Javascript files go here
/public_html/cgi-bin/	Perl / CGI here (you likely will not need this)

Very, Very important that we create the template pages and other pages using true Bootstrap from these CDN links:

```
<!DOCTYPE html>
<html lang="en-us">
<head>
<meta charset="utf-8">
<meta name="viewport" content="width=device-width, initial-scale=1">

<title>Website Name</title>

<!--External-CSS-->
<link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.4.1/css/bootstrap.min.css">

<!--Internal-CSS-->
<link rel="stylesheet" href="assets/css/style.css">

<!--External-JS-->
<script src="https://code.jquery.com/jquery-3.5.0.js"></script>
<script src="https://stackpath.bootstrapcdn.com/bootstrap/4.4.1/js/bootstrap.min.js"></script>

<!--Internal-JS-->
```

If you need Font Awesome or something like that please use from Stackpath CDN.

I am typing this on 4/25/2020 Internet in my area is not working very good this week. I will check Upwork often but may be delayed.

Email on my phone is: mediahosters@gmail.com and I will try to check it often until I can get back on normal computer. Skype is live:mediahosters

Current in Colorado USA. MST (2 hours behind EST)
