OBJECTIVE:
Fine-tune the CSS (css/app.css, create/edit classes if you need) to so that the **search design automatically scales based on the search font size (.dt-search-font-size)**

Buttons to control the font size. Use the +/- buttons to change the font size and make sure your design works properly with "em" units

Search Font size:

18

\+ \-

TO DO:
- **Review requirements** (next slide)
- **Change css/app.css** to meet requirements
  - all the sizes should be expressed in "em" unit so they can adapt based on .dt-search-font-size font size
- **Increase/decrease font size** with buttons and make sure the design properly scales up/down

Search for countries

🇨🇦 Canada ˣ   🇸🇪 Sweden ˣ

| 🇹🇼 Taiwan |
| Afghanistan |
| Albania |
| Algeria |
| American Samoa |
| Andorra |

🇧🇲 Bermuda   🇧🇹 Bhutan   Bolivia (Plurinational State of)   Bonaire, Sint Eustatius and Saba

🇧🇦 Bosnia and Herzegovina   Botswana   Bouvet Island   🇧🇷 Brazil

🇮🇴 British Indian Ocean Territory   🇻🇬 British Virgin Islands   Brunei Darussalam   🇧🇬 Bulgaria

🇧🇫 Burkina Faso   Burundi   Cabo Verde   🇰🇭 Cambodia   🇨🇲 Cameroon   🇨🇦 Canada

🇰🇾 Cayman Islands   Central African Republic   Chad   🇨🇱 Chile   🇨🇳 China

🇭🇰 China, Hong Kong Special Administrative Region   🇲🇴 China, Macao Special Administrative Region
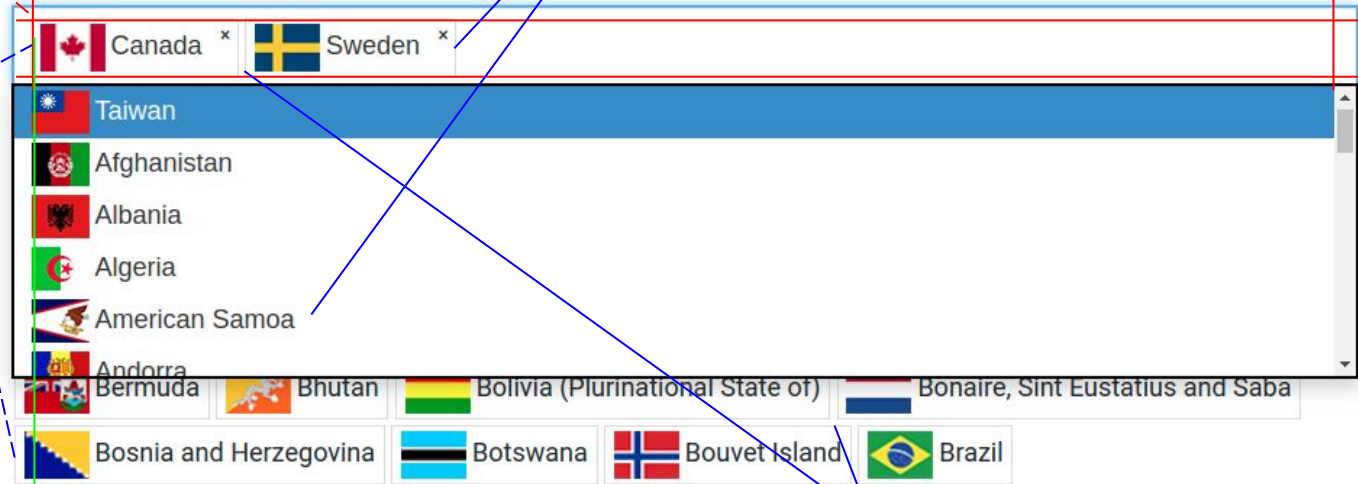

REQUIREMENTS

R0: all the design should properly scale up/down when changing the font size

R5: selected tags and options should look identical EXCEPT options don't have the x button and don't have borders around them

Search Font size:

18

+ -

R1: there should be the same spacing around selected tags and search input (left / top / right/ bottom) in search input

R6: search input cursor should be vertically aligned

Search for countries

🇨🇦 Canada ˣ   🇸🇪 Sweden ˣ

R2: tags selected and tag displayed below search should look identical EXCEPT selected tag has the x icon to close)

Taiwan

Afghanistan

Albania

Algeria

American Samoa

Andorra

Bermuda   Bhutan   Bolivia (Plurinational State of)   Bonaire, Sint Eustatius and Saba

Bosnia and Herzegovina   Botswana   Bouvet Island   Brazil

R3: all tags and dropdown options should have images aligned left

R4: there should be the same spacing between tags (selected and in list) both vertically and horizontally
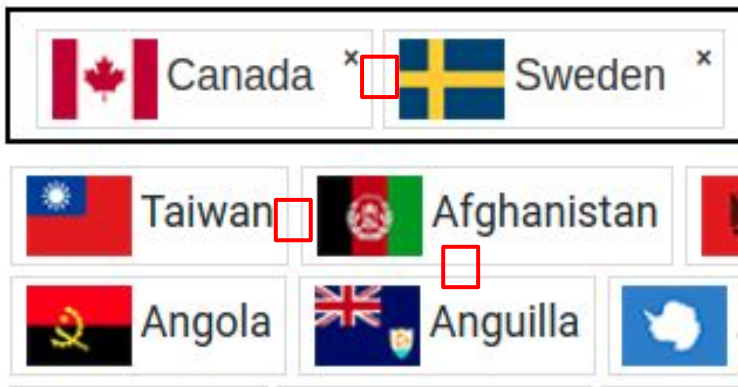

WHAT IS WRONG NOW

R1: not the same spacing around selected tags inside search input

R3: images not aligned left

R4: not the same spacing around tags (vertically and horizontally)

R6: When typing to select the first tag, the cursor is not vertically aligned

R0: eg when scaling up the font size the search input height isn't increased enough to properly display the selected tags and vice versa
